

Is Your Lawn Dying? We have the solution!

Grey Leaf Spot

Sod Webworm

Lawn Fungus is Rampant

It shows up as tan spots with a dark border and it can kill your grass! First, make sure your mower blades are as sharp as possible. Next, apply a fungicide; we recommend using Daconil for Grey Leaf Spot. It is easy to use because you can see exactly where you have sprayed it due to the temporary residue it leaves behind.

They're back, and they're hungry!

Webworms can eat your lawn to death. Look across your lawn, does it look "shorter" in spots, like portions have been mowed? Are the blades jagged, chewed? Bring us a sample 12"x12". We'll help.

Would You Like Some Expert Help?

We've been caring for Tallahassee lawns for almost 50 years. We'll spray your yard for you. Free Estimates - Beth 386-2114

Soggy Yard?
