

# SPRING WEEDS?

Now is the time to control spring's weed flush...

BEFORE it overruns your lawn...**Weed Free Zone** kills existing broadleaf weeds such as clover, chickweed, purslane, dandelion, and poison ivy. Ready-to-spray bottles mean no mixing, just attach to a hose and go. **Crabgrass?** Use Dimension to control seeds and Celcius to kill existing weeds.

**15-0-15 Weed-N-Feed...**  
The best fertilizer for this area...50% time release: kills weed seeds as it fertilizes. 7,500 sq ft size.

**Kill Existing Weeds**  
Fertilizes as it kills existing lawn weeds.

**Rattlesnake Weed Dollar Weed?**  
Why not kill it before it takes over the yard? Dimension covers 5000 sq ft.; kills and controls. Easy to spread granules. **FREE SPREADER USE.**

-----**FREE SPREADER USE**-----  
**Yard full of weeds? Tired of fighting and losing?**  
Call our spray department today for a free on site consultation & estimate.
